Contents

1 Introducing Oracle VM with Oracle VM Server for x86

- Objectives 1-2
- Lesson Overview 1-3
- Oracle VM with Oracle VM Server for x86 1-4
- Oracle VM Main Components 1-5
- Server Virtualization 1-6
- Advantages of Server Virtualization 1-7
- Challenges with Server Virtualization 1-8
- Application-Driven Virtualization with Oracle VM 1-9
- Application Deployment and Management with Oracle VM 1-10
- Virtualization Concepts with Oracle VM 1-11
- Server Virtualization Technologies 1-12
- Oracle VM Virtualization Architecture 1-14
- Guest Types with Oracle VM 1-15
- Guest Support with Oracle VM 1-16
- Quiz 1-17
- What's New in Oracle VM 3.0 1-18
- Oracle VM Functional Architecture 1-19
- Oracle VM Functional Architecture: Storage 1-20
- Oracle VM Functional Architecture: Networking 1-21
- Live Migration 1-22
- Server Pool Policies 1-23
- High Availability for Virtual Machines 1-24
- Faster Deployment with Oracle VM Templates and Assemblies 1-25
- Performance and Scalability Enhancements with Oracle VM 1-26
- Configuration Limits 1-27
- Benefits of the Oracle VM Solution: Summary 1-28
- Quiz 1-29
- Summary 1-30

2 Planning and Installation

- Objectives 2-2
- Planning your Installation 2-3
- Oracle VM Server for x86 2-4
- Requirements for the Oracle VM Manager Host 2-5

Oracle VM Manager Ports, Users, and Passwords	2-6
Networking in the Oracle VM Environment	2-7
Network Services	2-8
Storage for Oracle VM Servers	2-9
Installation and Postinstallation Steps for Oracle VM Components	2-10
Oracle VM Server for x86 Installation Steps	2-11
Oracle VM Server: Postinstallation Status	2-12
Oracle VM Manager Installation Steps	2-13
Oracle VM Manager Installation Options	2-14
Other Installation Options for Oracle VM Manager	2-15
Installation Directories	2-16
Enabling Console Access for Virtual Machines	2-17
Postinstallation Changes	2-18
Launching the Oracle VM Manager Application	2-19
Navigating the User Interface: The Home View	2-20
Navigating the User Interface: The Hardware View	2-21
Quiz	2-22
Summary	2-24

3 Managing Servers and Networks

Objectives	3-2
Lesson Overview	3-3
Initial Configuration Steps	3-4
Discovering Oracle VM Servers	3-5
Newly Discovered Oracle VM Server	3-6
Newly Discovered Oracle VM Server: Functions	3-7
Operations on Oracle VM Servers	3-8
Quiz	3-9
Networking in Oracle VM	3-10
Networks in the Oracle VM Environment	3-11
Networks and Network Functions	3-12
Management Networks	3-13
Management Interface on the Oracle VM Server	3-14
Creating Additional Networks	3-15
Guidelines for Creating Networks	3-16
Building Blocks for Creating Networks	3-17
Bonded Interfaces	3-18
Network Bonding: Example	3-19
Network Bridges	3-20
Network Bridges: Example	3-21
Creating a Network with VLAN Support	3-22

- Oracle VM VLAN Terminology 3-23
- VLAN Interfaces: Example 3-24
- Creating Networks with VLAN Support 3-25
- Configuring a VLAN Group 3-26
- Creating a Network with a VLAN Segment 3-27
- Creating Networks with Oracle VM Manager 3-28
- Managing Networks with the Oracle VM Manager 3-29
- Quiz 3-30
- Summary 3-31

4 Managing Storage

- Objectives 4-2
- Lesson Overview 4-3
- Oracle VM Initial Configuration: Storage Tasks 4-4
- Storage Highlights 4-5
- Storage Functions 4-6
- Accessing Storage in the Oracle VM Environment 4-7
- Storage Connect Framework 4-8
- Storage Connect Generic and Vendor Plug-Ins 4-9
- Preparing External Storage 4-10
- Preparing External Storage: FC Multipathing 4-11
- Quiz 4-12
- Configuring Storage in Oracle VM 4-13
- Storage Management with the Oracle VM Manager 4-14
- Configuring File Servers 4-15
- Registering a File Server: Generic Network File System Example 4-16
- Configuring Storage Arrays 4-17
- Unmanaged and Managed Storage Arrays 4-18
- Unmanaged Storage Array Behavior 4-19
- Registering Storage Arrays: iSCSI Example with Generic SCSI Plug-In 4-20
- Registration Process 4-21
- After Completing the Registration Process 4-22
- Refreshing the Storage Array 4-23
- Configuring Access Groups 4-24
- Completing the Storage Array Configuration 4-25
- Making Changes to Your Storage 4-26
- Physical Disk Cloning 4-27
- Cloning Terminology 4-28
- Cloning Physical Disks with Oracle VM 4-29
- Vendor-Managed Storage Case Study Using the Sun ZFS Storage Appliance 4-30
- Sun ZFS Storage Appliance Storage Connect Components 4-31

Using the Sun ZFS Storage Appliance with Oracle VM 4-32
Installing the Sun ZFS Storage Appliance Plug-in and Workflows 4-33
Creating an Oracle VM Project on the Sun ZFS Storage Appliance 4-34
Creating a Role and User for Oracle VM on the Sun ZFS Storage Appliance 4-35
Creating an iSCSI Target and Target Group on the Sun ZFS Storage Appliance 4-36
Registering the Sun ZFS Storage Appliance from the Oracle VM Manager 4-37
Creating Physical Disks in the Sun ZFS Storage Array Using the Oracle VM Manager 4-38
Creating an Access Group from the Oracle VM Manager 4-39
Presenting Physical Disks to the Access Group from the Oracle VM Manager 4-40
Cloning Physical Disks in the Sun ZFS Storage Array Using the Oracle VM Manager 4-41
Quiz 4-42
Summary 4-43

5 Server Pools and Repositories

Objectives 5-2
Lesson Overview 5-3
Server Pool and Repository Configuration Tasks 5-4
Server Pools and Repositories 5-5
Server Pool: Overview 5-6
Server Pool Functions 5-7
Server Pool Clusters 5-8
OCFS2 for Oracle VM 5-9
Components of OCFS2 5-10
Building a Clustered Server Pool with OCFS2 5-11
Server Pool Cluster with Shared Resources and Distributed Lock Management 5-12
OCFS2 Features 5-13
OCFS2 Cluster Services 5-14
Server Pool Deployment Planning 5-15
Creating a Clustered Server Pool with Oracle VM Manager 5-16
Adding Oracle VM Servers to a Server Pool 5-17
Cluster Creation 5-18
Oracle VM Cluster Configuration 5-19
Nonclustered Server Pools 5-20
Managing Server Pools 5-21
Server Pool Policies 5-22
Distributed Resource Scheduling 5-23
How DRS/DPM Work 5-24
Quiz 5-25

- Oracle VM Repositories 5-26
- Storage Repositories 5-27
- Creating Storage Repositories 5-28
- Presenting Oracle VM Servers to Repositories 5-29
- Adding Resources to Repositories 5-30
- Managing Virtual Disks in Repositories 5-31
- Cloning a Virtual Disk 5-32
- Managing Repositories 5-34
- Quiz 5-35
- Summary 5-36

6 Managing Virtual Machines

- Objectives 6-2
- Lesson Overview 6-3
- Review: Virtual Machine Terminology 6-4
- Creating Virtual Machines 6-6
- Virtual Machine Components 6-7
- Review: Disk Storage for Virtual Machines 6-8
- Virtual Machine Networking: The Virtual Nic Manager 6-9
- Steps to Create a Virtual Machine 6-10
- Example: Create a Virtual Machine Using the Installation Media 6-11
- Create a Virtual Machine Using the Installation Media: Variation for a PV Guest 6-17
- Virtual Machine Configuration File 6-18
- Starting and Accessing the Virtual Machine 6-19
- Installing the Operating System in the Guest 6-20
- Using Kickstart to Create Virtual Machines 6-22
- Quiz 6-23
- Templates, Assemblies, and Cloning 6-24
- Creating Virtual Machines from Templates and Assemblies 6-25
- Creating New Virtual Machines with Cloning 6-26
- Simple and Advanced Clone Operations 6-27
- Cloning and Clone Definitions 6-28
- Cloning Process Using Clone Definitions 6-29
- Oracle VM Manager Clone Definition Operations 6-30
- Creating a New Clone Definition 6-31
- Clone Definition Disk Mappings to Repositories, Physical Disks, and Storage Arrays 6-32
- Creating a Virtual Machine or Template Using a Clone Definition 6-33
- Managing Virtual Machines 6-34
- Virtual Machine Life Cycle 6-35

More Actions on Virtual Machines	6-36
Enabling High Availability for Virtual Machines	6-37
HA and Oracle VM Server Failure	6-38
Quiz	6-39
Summary	6-40
