# Contents

## Preface

### **1 Introducing Oracle Enterprise Manager Ops Center, 12c**

- Objectives 1-2
- Today's Technical and Business Challenges (1/2) 1-3
- Today's Technical and Business Challenges (2/2) 1-4
- About Enterprise Manager Ops Center 1-5
- About Enterprise Manager Ops Center: Benefits 1-6
- About Enterprise Manager Ops Center: Asset Life Cycle Management 1-7
- About Enterprise Manager Ops Center: Integration with Cloud Control 1-8
- Component: Overview 1-9
- Installation Options: Downloading Installers 1-11
- Installation Options: Oracle Engineered Systems (1/2) 1-12
- Installation Options: Oracle Engineered Systems (2/2) 1-13
- Operating System Management Capabilities 1-14
- Main Features 1-15
- Main Features: Discovering and Managing Assets 1-16
- Main Features: Provisioning Operating Systems and Firmware 1-17
- Main Features: Managing Operating System Updates 1-18
- Main Features: Monitoring and Managing Assets (1/2) 1-19
- Main Features: Monitoring and Managing Assets (2/2) 1-20
- Main Features: Managing Incidents 1-21
- Main Features: Generating Reports 1-22
- Main Features: Creating and Managing Virtual Systems 1-24
- User Interface 1-25
- User Interface: Navigation Pane 1-26
- User Interface: Center Pane 1-28
- User Interface: Action Pane 1-29
- User Interface: Jobs Pane 1-30
- New Features: Enterprise Manager Ops Center 12c 1-31
- New Features: Enterprise Manager Ops Center 12c Release 1 1-32
- Quiz 1-33
- Summary 1-36

## **2 Understanding the Architecture**

- Objectives 2-2
- Components in Detail 2-3
- Components in Detail: Browser User Interface 2-4
- Components in Detail: Knowledge Base and Oracle Solaris 11 Package Repository 2-5
- Components in Detail: Enterprise Controller (1/2) 2-6
- Components in Detail: Enterprise Controller (2/2) 2-7
- Components in Detail: Enterprise Controller Database 2-8
- Components in Detail: Proxy Controller (1/4) 2-9
- Components in Detail: Proxy Controller (2/4) 2-10
- Components in Detail: Proxy Controller (3/4) 2-11
- Components in Detail: Proxy Controller (4/4) 2-12
- Components in Detail: Agent Controller 2-13
- Components in Detail: Assets (1/3) 2-16
- Components in Detail: Assets (2/3) 2-17
- Components in Detail: Assets (3/3) 2-19
- Connected Mode Versus Disconnected Mode (1/2) 2-20
- Network Ports and Protocols (1/3) 2-22
- Network Ports and Protocols (2/3) 2-23
- Network Ports and Protocols (3/3) 2-24
- Enterprise Manager Ops Center's Subscription Model 2-27
- Enterprise Manager Ops Center's Job Process 2-28
- Enterprise Manager Ops Center Infrastructure Stack Plug-in 2-29
- Quiz 2-30
- Summary 2-34
- Practice 2 Overview: Understanding the Architecture 2-35

## **3 Installing and Configuring Oracle Enterprise Manager Ops Center**

- Objectives 3-2
- Installation: Overview 3-3
- System Requirements: Enterprise Controller and Proxy Controller 3-5
- System Requirements: Oracle Database 3-7
- System Requirements: Oracle Solaris 11 Requirements 3-11
- System Requirements: Using the OCDoctor.sh Script 3-14
- Ops Center Configuration Options Example Configuration 3-17
- Configuration Options Configuration Wizard 3-18
- Preparing for Installation Downloading an Update Bundle 3-19
- Preparing for Installation Accessing Software and Documentation 3-21
- Preparing for Installation Preparing an Oracle Solaris System 3-22
- Preparing for Installation Preparing a Linux System 3-24

Enterprise Manager Ops Center HA Configuration HA Overview	3-26
Performing an Installation Installation: Overview	3-28
Performing an Installation Beginning the Installation	3-29
Performing an Installation System Requirements Checks	3-30
Performing an Installation install Script Progress	3-31
Performing an Installation Installation Complete	3-32
Performing an Installation Logging In to Enterprise Manager Ops Center	3-33
Performing an Installation Prerequisite Checklist	3-34
Performing an Installation Enterprise Controller Setup Panel	3-35
Performing an Installation Configuring Proxy Controllers	3-37
Performing an Installation Remote Proxy Controllers Panel	3-38
Performing an Installation Proxy Controller Status Panel	3-39
Performing an Installation Connection Mode Panel	3-40
Performing an Installation Connecting to My Oracle Support Panel	3-41
Performing an Installation ASR Contact Information Panel	3-42
Performing an Installation Create Software Libraries Panel	3-43
Performing an Installation Linux and Oracle Solaris Software Source Panel	3-44
Performing an Installation Oracle Solaris 11 Source Repository Panel	3-45
Performing an Installation Configure DHCP for OS Provisioning Panel	3-46
Performing an Installation Summary Panel	3-47
Performing an Installation Configuration Complete	3-48
Installation Validation	3-49
Deploying Additional Proxies	3-51
Deploying Additional Proxies Deploy Proxy Wizard	3-52
Deploying Additional Proxies Manually Deploying a Proxy Controller	3-55
Uninstalling Ops Center	3-57
Setting Session Timeout Values	3-58
Quiz	3-59
Summary	3-63
Practice 3 Overview: Installing Oracle Enterprise Manager Ops Center	3-64

#### **4 Discovering and Managing Assets**

Objectives	4-2
Asset Discovery and Management: Overview	4-3
Creating a Discovery Profile Create Profile Action	4-9
Using the Add Assets Action	4-16
Using the Add Assets Action Adding Assets Using Discovery Probes	4-17
Using the Add Assets Action Declaring Servers for OS Provisioning	4-20
Using the Add Assets Action XML Discovery File Format	4-23
Using the Add Assets Action Declaring Servers for SP Configuration	4-25
Switching Management Access	4-28

Using the Find Assets Action	4-31
Using the Find Assets Action Managing Discovered Hardware	4-33
Using the Find Assets Action Managing Discovered Operating Systems	4-34
Using the Find Assets Action Managing Engineered Systems and Summary	4-35
Using Discovery Profile Life-Cycle Actions	4-36
Using Management Credentials Life-Cycle Actions	4-37
Using Management Credentials Life-Cycle Actions: Editing Credentials	4-40
Using Management Credentials Life-Cycle Actions: Copying Credentials	4-41
Using Management Credentials Life-Cycle Actions: Deleting Credentials	4-42
Updating Management Credentials	4-43
Configuring a Windows OS for Discovery	4-47
Configuring a Windows OS for Discovery Creating Discovery Criteria	4-48
Discovering a SPARC Enterprise M-Series Server Overview	4-49
Discovering a SPARC Enterprise M-Series Server Creating Discovery Criteria	4-50
Migrating Assets Between Proxy Controllers	4-51
Deleting Assets	4-53
Quiz	4-56
Summary	4-60
Practice 4 Overview: Discovering and Managing Assets	4-61

## **5 Monitoring and Administering Assets Using Oracle Enterprise Manager Ops Center**

Objectives	5-2
Manually Installing Agent Controller Software: Overview	5-3
Manually Installing Agent Controller Software Agent Installation and Configuration	5-4
Manually Installing Agent Controller Software Agent Install Script Options	5-5
Manually Installing Agent Controller Software agentadm Command	5-6
Manually Installing Agent Controller Software Required agentadm Configuration Arguments	5-7
Manually Installing Agent Controller Software Optional agentadm Configuration Arguments	5-9
Manually Installing Agent Controller Software Agent Configuration Using agentadm	5-10
Manually Installing Agent Controller Software Manual Agent Configuration Results in the UI	5-11
Agent Configuration Agent Configuration for the EC and Proxy	5-12
Agent Configuration Configuring the EC Agent in the UI	5-13
Asset Management and Monitoring: Overview	5-14
Asset Management and Monitoring Hardware Management and Monitoring	5-15
Asset Management and Monitoring System Capabilities (OS Management)	5-17

Asset Management and Monitoring System Capabilities (SP Management)	5-18
Asset Management and Monitoring Monitored System Data (SP Management)	5-19
Asset Management and Monitoring SP Management Action: Example	5-20
Asset Management and Monitoring OS Management and Monitoring	5-21
Asset Management and Monitoring OS Capabilities	5-23
Asset Management and Monitoring OS Capabilities Action: Example	5-25
Asset Management and Monitoring Monitored OS Data (Summary)	5-26
Asset Management and Monitoring Monitored OS Data (Analytics)	5-27
Asset Management and Monitoring Dashboard View of Assets	5-29
Asset Management and Monitoring Dashboard View for All Assets	5-30
Asset Management and Monitoring Dashboard View for a Single Asset	5-31
Asset Management and Monitoring Dashboard View of a Managed Network	5-33
Asset Grouping Overview	5-34
Asset Grouping Standard Views of Assets	5-35
Asset Grouping Operating System View of Assets	5-36
Asset Grouping Server View of Assets	5-37
Asset Grouping User-Defined Groups	5-38
Asset Grouping Creating User-Defined Groups	5-39
Asset Grouping User-Defined Groups in the UI	5-45
Asset Management Organizing Assets	5-46
Asset Management Organizing Single Assets in the UI	5-47
Asset Management Organizing Managed Assets in the UI	5-48
Asset Management Organizing Grouped Assets in the UI	5-49
Quiz	5-50
Summary	5-52
Practice 5 Overview: Monitoring and Administering Assets Using Oracle Enterprise Manager Ops Center	5-53

## **6 Managing Users and Roles**

Objectives	6-2
Users and Roles: Overview	6-3
Users and Roles: Overview User and Role Actions	6-4
Users and Roles Overview Roles and Permissions	6-5
Users and Roles Overview Permissions and Tasks	6-6
Users and Roles Overview Roles and Assets	6-7
Adding Local Users	6-8
Viewing Role Details	6-10
Viewing Role Details View User Role Details Wizard	6-11
Managing User Roles	6-13
Managing User Roles Manage Roles Wizard	6-14
Replicating User Roles	6-18

Managing User Roles Replicate User Roles Panel 6-19  
Configuring Notification Profiles 6-21  
Quiz 6-28  
Summary 6-32  
Practice 6 Overview: Managing Users and Roles 6-33

## **7 Managing Software Libraries**

Objectives 7-2  
About Libraries 7-3  
About Libraries: Software Libraries (1/2) 7-4  
About Libraries: Software Libraries (2/2) 7-5  
About Libraries: Storage Libraries (1/2) 7-6  
About Libraries: Storage Libraries (2/2) 7-7  
Adding Software Libraries 7-8  
Adding Software Libraries: Adding Local Libraries (1/2) 7-9  
Adding Software Libraries: Adding Local Libraries (2/2) 7-10  
Adding Software Libraries: Adding NAS Libraries (1/2) 7-11  
Adding Software Libraries: Adding NAS Libraries (2/2) 7-12  
Adding Software Libraries: Editing Library Attributes 7-13  
Adding OS Images to Local Software Libraries 7-14  
Adding OS Images to Local Software Libraries: Selecting Actions 7-15  
Adding OS Images to Local Software Libraries: Uploading ISO Images 7-16  
Adding OS Images to Local Software Libraries: Importing OS Images 7-17  
Adding OS Images to Local Software Libraries: Downloading OS Images 7-18  
Managing OS Images: Viewing Images in Software Libraries 7-19  
Managing OS Images: Viewing Default Plans and Profiles 7-20  
Managing OS Images: Selecting Management Actions 7-21  
Adding Firmware to Software Libraries 7-22  
Adding Firmware to Software Libraries: Downloading Firmware Images 7-23  
Adding Firmware to Software Libraries: Uploading Firmware Images with  
Metadata (1/4) 7-24  
Adding Firmware to Software Libraries: Uploading Firmware Images with  
Metadata (2/4) 7-25  
Adding Firmware to Software Libraries: Uploading Firmware Images with  
Metadata (3/4) 7-26  
Adding Firmware to Software Libraries: Uploading Firmware Images with  
Metadata (4/4) 7-27  
Adding Firmware to Software Libraries: Uploading Firmware Images  
without Metadata (1/5) 7-28  
Adding Firmware to Software Libraries: Uploading Firmware Images  
without Metadata (2/5) 7-29

Adding Firmware to Software Libraries: Uploading Firmware Images without Metadata (3/5) 7-30  
Adding Firmware to Software Libraries: Uploading Firmware Images without Metadata (4/5) 7-31  
Adding Firmware to Software Libraries: Uploading Firmware Images without Metadata (5/5) 7-32  
Managing Firmware Images: Viewing Firmware Images in Software Libraries 7-33  
Managing Firmware Images: Viewing Default Plans and Profiles 7-34  
Managing Firmware Images: Selecting Management Actions 7-35  
Managing the Solaris 11 Library: Initial Configuration 7-36  
Managing the Solaris 11 Library: Viewing Library Details and Content 7-37  
Managing the Solaris 11 Library: Viewing Default Plans and Profiles 7-38  
Managing the Solaris 11 Library: Synchronizing the Library 7-39  
Quiz 7-43  
Summary 7-46  
Practice 7 Overview: Managing Libraries 7-47

## **8 Introducing Plan Management**

Objectives 8-2  
Plans and Profiles: Overview 8-3  
Plans and Profiles: Browser UI 8-4  
Plan Management UI 8-6  
Deployment Plans: Structure and Creation 8-7  
Deployment Plans and Profiles: Default OS Provisioning Plans 8-8  
Deployment Plans and Profiles: Default OS Provisioning Profiles 8-9  
Deployment Plans and Profiles: Default Firmware Provisioning Plans 8-10  
Deployment Plans and Profiles: Default Firmware Provisioning Profiles 8-11  
Deployment Plans and Profiles: Creating a Deployment Plan with a Template 8-12  
Deployment Plans and Profiles: Copying an Existing Deployment Plan 8-13  
Deployment Plans and Profiles: Creating a Deployment Profile 8-14  
Deployment Plans and Profiles: Copying an Existing Deployment Profile 8-15  
Deployment Plans and Profiles: Versions of Plans and Profiles 8-16  
Deployment Plans and Profiles: Versions of Deployment Profiles 8-17  
Deployment Plans and Profiles: Updating Deployment Plans from Profiles 8-18  
Deployment Plans and Profiles: Referrers to Profiles 8-19  
Deployment Plans and Profiles: Deleting a Version of a Profile 8-20  
Applying Deployment Plans 8-21  
Applying Deployment Plans: Applying a Plan from Deployment Plans Summary 8-22  
Applying Deployment Plans: Applying a Plan from the Plan's Action Menu 8-23  
Applying Deployment Plans: Applying a Plan from an Asset's Action Menu 8-24

Applying Deployment Plans: Pre-Deployment Options	8-25
Plan Management Tabs: Operational Plans Category	8-26
Operational Plans and Profiles: Overview	8-27
Operational Plans and Profiles: Operational Plans and Profiles in the BUI	8-28
Operational Plans and Profiles: Creating an Operational Profile and Plan	8-29
Create an Operational Profile: Step 1 - Identify Profile	8-30
Creating an Operational Profile: Step 2 - Script	8-31
Creating an Operational Profile: Step 3 - Specify Additional Variables	8-33
Creating an Operational Profile: Step 4 - Summary	8-34
Operational Plans and Profiles: Applying an Operational Plan	8-35
Applying an Operational Plan: Applying a Plan from the Plan Management Tab	8-36
Applying an Operational Plan: Applying a Plan from the Asset Tab	8-37
Applying an Operational Plan: Operational Plan Selection and Variable Definition	8-38
Applying an Operational Plan: Job for an Operational Plan and Event Logs	8-39
Applying an Operational Plan: Alert-Based Execution of Operational Plans	8-40
Changes in Enterprise Manager Ops Center 12c	8-41
Quiz	8-43
Summary	8-46
Practice 8 Overview: Introducing Plan Management	8-47

## **9 Provisioning Firmware Using Oracle Enterprise Manager Ops Center**

Objectives	9-2
Firmware Provisioning Overview	9-3
Firmware Provisioning Overview Preparing for Firmware Provisioning	9-4
Managing Firmware Images Storing Firmware Images	9-5
Managing Firmware Images Uploading Firmware Using Manual Metadata	9-7
Managing Firmware Images Uploading Firmware Using XML Metadata	9-14
Managing Firmware Images Uploaded Firmware	9-16
Managing Firmware Images Editing Firmware Metadata	9-17
Managing Firmware Images Identifying Default Firmware Profiles	9-18
Managing Firmware Images Identifying Default Deployment Plans	9-19
Managing Firmware Profiles Editing or Copying Firmware Provisioning Profiles	9-20
Managing Firmware Profiles Editing a Firmware Provisioning Profile	9-21
Managing Firmware Profiles Copying a Firmware Provisioning Profile	9-27
Managing Firmware Profiles Creating a Firmware Provisioning Profile	9-29
Managing Deployment Plans Creating a Deployment Plan	9-31
Managing Deployment Plans Editing a Deployment Plan	9-33
Running Firmware Reports	9-34
Provisioning Firmware	9-42
Provisioning Firmware Apply Deployment Plan Action	9-43

Provisioning Firmware Update Firmware Action	9-44
Provisioning Firmware Update Firmware Wizard – Minimal Interaction	9-45
Provisioning Firmware Update Firmware Wizard – Override Values	9-46
Enabling Automatic Firmware Downloads	9-48
Quiz	9-52
Summary	9-57
Practice 9 Overview: Provisioning Firmware	9-58

## **10 Provisioning Operating Systems Using Enterprise Manager Ops Center**

Objectives	10-2
OS Provisioning: Overview (1/2)	10-3
OS Provisioning: Overview (2/2)	10-4
OS Provisioning: Preparing for OS Provisioning	10-5
Locating OS Images, Default OS Profiles, and Default Deployment Plans (1/3)	10-6
Locating OS Images, Default OS Profiles, and Default Deployment Plans (2/3)	10-7
Locating OS Images, Default OS Profiles, and Default Deployment Plans (3/3)	10-8
Configuring DHCP	10-9
Configuring DHCP: Enabling DHCP Services	10-10
Configuring DHCP: Configuring Subnets	10-11
Configuring DHCP: Configuring External DHCP Servers	10-12
Editing and Copying OS Provisioning Profiles (1/2)	10-13
Editing and Copying OS Provisioning Profiles (2/2)	10-14
Creating OS Provisioning Profiles: Starting the Create Profile Wizard	10-15
Creating OS Provisioning Profiles: Selecting Profile Types	10-16
Creating OS Provisioning Profiles: Identifying Profiles	10-17
Creating OS Provisioning Profiles: Creating Solaris 10 Profiles (1/11)	10-18
Creating OS Provisioning Profiles: Creating Solaris 10 Profiles (2/11)	10-19
Creating OS Provisioning Profiles: Creating Solaris 10 Profiles (3/11)	10-20
Creating OS Provisioning Profiles: Creating Solaris 10 Profiles (4/11)	10-21
Creating OS Provisioning Profiles: Creating Solaris 10 Profiles (5/11)	10-22
Creating OS Provisioning Profiles: Creating Solaris 10 Profiles (6/11)	10-23
Creating OS Provisioning Profiles: Creating Solaris 10 Profiles (7/11)	10-24
Creating OS Provisioning Profiles: Creating Solaris 10 Profiles (8/11)	10-25
Creating OS Provisioning Profiles: Creating Solaris 10 Profiles (9/11)	10-26
Creating OS Provisioning Profiles: Creating Solaris 10 Profiles (10/11)	10-27
Creating OS Provisioning Profiles: Creating Solaris 10 Profiles (11/11)	10-28
Creating OS Provisioning Profiles: Creating Solaris 11 Profiles (1/4)	10-29
Creating OS Provisioning Profiles: Creating Solaris 11 Profiles (2/4)	10-30
Creating OS Provisioning Profiles: Creating Solaris 11 Profiles (3/4)	10-31
Creating OS Provisioning Profiles: Creating Solaris 11 Profiles (4/4)	10-32
Creating OS Provisioning Profiles: Creating Linux Profiles (1/6)	10-33

Creating OS Provisioning Profiles: Creating Linux Profiles (2/6)	10-34
Creating OS Provisioning Profiles: Creating Linux Profiles (3/6)	10-35
Creating OS Provisioning Profiles: Creating Linux Profiles (4/6)	10-36
Creating OS Provisioning Profiles: Creating Linux Profiles (5/6)	10-37
Creating OS Provisioning Profiles: Creating Linux Profiles (6/6)	10-38
Creating Deployment Plans (1/3)	10-39
Creating Deployment Plans (2/3)	10-40
Creating Deployment Plans (3/3)	10-41
Provisioning Operating Systems	10-42
Provisioning Operating Systems: Applying Deployment Plans (1/2)	10-43
Provisioning Operating Systems: Applying Deployment Plans (2/2)	10-44
Provisioning Operating Systems: Provisioning with Minimal Interaction (1/5)	10-45
Provisioning an OS Provisioning with Minimal Interaction (2/5)	10-46
Provisioning an OS Provisioning with Minimal Interaction (3/5)	10-47
Provisioning an OS Provisioning with Minimal Interaction (4/5)	10-48
Provisioning an OS Provisioning with Minimal Interaction (5/5)	10-49
Provisioning Operating Systems: Overriding Profile Values (1/2)	10-50
Provisioning Operating Systems: Overriding Profile Values (2/2)	10-51
Installing JET Modules: Overview	10-52
Installing JET Modules: Default JET Modules	10-53
Installing JET Modules: Specifying JET Parameters and Importing JET Templates	10-55
Installing JET Modules Downloading JET Packages	10-56
Installing JET Modules Installing JET Packages onto Proxy Controllers	10-57
Quiz	10-58
Summary	10-63
Practice 8 Overview: Provisioning Operating Systems	10-64

## **11 Performing Update Management using Enterprise Manager Ops Center**

Objectives	11-2
OS Updates	11-3
OS Updates: Operating System Support	11-4
OS Updates: Prerequisites for OS Updates	11-5
OS Updates: Methods for Adding Update Content	11-6
OS Updates: Solaris 8-10 and Linux OS Updates (1/2)	11-7
OS Updates: Solaris 8-10 and Linux OS Updates (2/2)	11-8
OS Updates: Linux and Solaris 8-10 Software Update Library	11-9
OS Updates: Oracle Solaris 11 Software Update Library	11-10
Performing Bulk Uploads: About the Bulk Upload Facility	11-11
Performing Bulk Uploads: Actions in the User Interface	11-12
Performing Bulk Uploads: Examining Bulk Upload Results	11-13

Solaris 8-10 and Linux Catalogs 11-14

Solaris 8-10 and Linux Catalogs: Actions 11-15

Working with Solaris 8-10 and Linux Catalogs: Viewing a Catalog 11-16

Working with Solaris 8-10 and Linux Catalogs: Creating a Snapshot of Catalog State 11-17

Working with Solaris 8-10 and Linux Catalogs: Patching an Asset from a Catalog 11-18

Options for Performing OS Updates 11-19

Options for Performing OS Updates: Update Actions for a Solaris 8-10 or Linux Asset 11-20

Options for Performing OS Updates: Update Actions for a Solaris 11 Asset 11-21

Options for Performing OS Updates: Updating an OS from an Update Profile 11-22

Options for Performing OS Updates: Updating an OS by Applying a Deployment Plan 11-23

Options for Performing OS Updates: Update Options from Report Results 11-24

Configuring the New OS Update Job Wizard 11-25

Configuring the New OS Update Job Wizard: Job Information Screen 11-26

Configuring the New OS Update Job Wizard: Job Schedule Screen 11-27

Configuring the New OS Update Job Wizard: Components of the Job Wizard 11-28

Configuring the New OS Update Job Wizard: Tasks in an OS Update Job 11-29

Configuring the New OS Update Job Wizard: Example Settings for a Multi-Task Job 11-30

OS Update Profiles 11-31

Creating OS Update Profiles: Starting the Create OS Update Profile Wizard 11-32

Creating OS Update Profiles: Searching for Packages and Patches 11-33

Creating OS Update Profiles: Installing Packages and Patches 11-34

Creating OS Update Profiles: Viewing OS Update Profiles 11-35

OS Update Policies 11-36

Creating OS Update Policies: Starting the Create OS Update Policy Wizard 11-37

Creating OS Update Policies: Configuring the Create OS Update Policy Wizard 11-38

Creating OS Update Policies: Viewing OS Update Policies 11-39

Selecting Custom OS Update Profiles and Policies for New Update OS Jobs 11-40

OS Update Jobs 11-41

OS Update Jobs: Update Process 11-42

Working with OS Update Jobs: Tracking the Status of Update Jobs 11-43

Working with OS Update Jobs: Answering Questions for an Update Job (1/2) 11-44

Working with OS Update Jobs: Answering Questions for an Update Job (2/2) 11-45

Working with OS Update Jobs: Viewing Task Progress for a Simulation Mode Job 11-46

Working with OS Update Jobs: Re-Running an Update Job in Actual Run Mode 11-47  
Deployment Plans 11-48  
Deployment Plans: Template for Install Server Plan 11-49  
Deployment Plans: Template for Software Deployment/Update Plan 11-50  
Deployment Plans: Template for Update Solaris 11 OS Plan 11-51  
Deployment Plans: Update Solaris 11 OS Plan with OS Update Profile 11-52  
Working with Deployment Plans: Applying a Solaris 11 Deployment Plan 11-53  
Working with Deployment Plans: Viewing the Job Status for an OS Update Plan 11-54  
Changes in OS Update Management for Enterprise Manager Ops Center 12c 11-55  
Quiz 11-56  
Summary 11-60  
Practice 11: Overview 11-61

## **12 Performing Advanced Update Management with Enterprise Manager Ops Center**

Objectives 12-2  
Preparing for Disconnected Mode (1/2) 12-3  
Preparing for Disconnected Mode (2/2) 12-4  
Downloading Metadata: Copying the Harvester Bundle 12-5  
Downloading Metadata: Running the Harvester 12-6  
Downloading Metadata: Specifying General Commands 12-7  
Downloading Metadata: Specifying Configuration Commands 12-8  
Downloading Metadata: Example config.ini File 12-9  
Downloading Metadata: Specifying Commands for Patch Downloads 12-10  
Downloading Metadata: Running the Harvester Script (1/2) 12-11  
Downloading Metadata: Running the Harvester Script (2/2) 12-12  
Downloading Metadata: Example of Harvester Script Output 12-13  
Setting Up Disconnected Mode: Options 12-14  
Setting Up Disconnected Mode: Configuring Disconnected Mode 12-15  
Setting Up Disconnected Mode: Switching to Disconnected Mode (1/3) 12-16  
Setting Up Disconnected Mode: Switching to Disconnected Mode (2/3) 12-17  
Setting Up Disconnected Mode: Switching to Disconnected Mode (3/3) 12-18  
Local Content: Overview 12-19  
Local Content: Navigation and Actions in the Browser UI 12-20  
Adding Solaris 8-10 and Linux Local Content: Uploading Configuration Files (1/2) 12-21  
Adding Solaris 8-10 and Linux Local Content: Uploading Configuration Files (2/2) 12-22

Adding Solaris 8-10 and Linux Local Content: Uploading Local Software Packages (1/2) 12-23

Adding Solaris 8-10 and Linux Local Content: Uploading Local Software Packages (2/2) 12-24

Adding Solaris 8-10 and Linux Local Content: Uploading Local Actions (1/2) 12-25

Adding Solaris 8-10 and Linux Local Content: Uploading Local Actions (2/2) 12-26

Adding Solaris 8-10 and Linux Local Content: Adding Local Content to OS Update Profiles (1/2) 12-27

Adding Solaris 8-10 and Linux Local Content: Adding Local Content to OS Update Profiles (2/2) 12-28

Adding Solaris 11 Local Content: Overview 12-29

Adding Solaris 11 Local Content: Creating an IPS Package 12-30

Adding Solaris 11 Local Content: Publishing an IPS Package 12-31

Adding Solaris 11 Local Content: Uploading IPS Content (1/2) 12-32

Adding Solaris 11 Local Content: Uploading IPS Content (2/2) 12-33

Updating Solaris Boot Environments: Solaris Live Upgrade Capabilities 12-34

Updating Solaris Boot Environments: Solaris Live Upgrade File Systems 12-35

Updating Solaris Boot Environments: Applying an Update to an Inactive BE 12-36

Updating Solaris Boot Environments: Supported Operating Systems 12-37

Creating Boot Environments: Overview 12-38

Creating Boot Environments During OS Updates: Solaris 10 (1/2) 12-39

Creating Boot Environments During OS Updates: Solaris 10 (2/2) 12-40

Creating Boot Environments by Using Profiles 12-41

Creating Boot Environments by Using Profiles: Solaris 10 (1/3) 12-42

Creating Boot Environments by Using Profiles: Solaris 10 (2/3) 12-43

Creating Boot Environments by Using Profiles: Solaris 10 (3/3) 12-44

Creating Boot Environments by Using Profiles: Solaris 11 (1/2) 12-45

Creating Boot Environments by Using Profiles: Solaris 11 (2/2) 12-46

Creating Boot Environments by Using the Create New Boot Environment Action – Solaris 11 12-47

Viewing and Managing Boot Environments 12-48

Viewing and Managing Boot Environments: Solaris 10 Boot Environments Tab 12-49

Viewing and Managing Boot Environments: Solaris 11 Boot Environments Tab 12-50

Viewing and Managing Boot Environments: Management Capabilities 12-51

Viewing and Managing Boot Environments: Activating and Rebooting Boot Environments 12-52

Viewing and Managing Boot Environments: Synchronizing Boot Environments 12-53

Viewing and Managing Boot Environments: Patching Solaris 10 Boot Environments (1/2) 12-54  
Viewing and Managing Boot Environments: Patching Solaris 10 Boot Environments (2/2) 12-55  
Changes in Enterprise Manager Ops Center 12c Release 1 12-56  
Quiz 12-57  
Summary 12-59  
Practice 12 Overview: Performing Advanced Update Management 12-60

### **13 Managing Incidents, Service Requests, and Notifications using Enterprise Manager Ops Center**

Objectives 13-2  
Monitored Data and Monitoring Policies: Overview 13-3  
Monitoring: Monitored Data for a Server 13-4  
Monitoring: Monitoring Policy for a Server 13-5  
Monitoring: Monitored Data for an OS Instance 13-6  
Monitoring: Monitoring Policy for an OS Instance 13-7  
Monitoring Policies and Alert Monitoring Rules: Overview 13-8  
Monitoring Policies: Default Monitoring Policies in the Browser UI 13-9  
Monitoring Policies: Alert Monitoring Rules in a Monitoring Policy 13-10  
Monitoring Policies: Managing Monitoring Policies 13-11  
Managing Monitoring Policies: Viewing Assets Associated with a Monitoring Policy 13-12  
Managing Monitoring Policies: Editing an Asset's Monitoring Policy 13-13  
Managing Monitoring Policies: Disabling Alert Monitoring Rules 13-14  
Managing Monitoring Policies: Deleting Alert Monitoring Rules 13-15  
Managing Monitoring Policies: Creating and Using Custom Monitoring Policies 13-16  
Managing Monitoring Policies: Extracting a Monitoring Policy from an Asset 13-17  
Managing Monitoring Policies: Creating a Monitoring Policy 13-18  
Managing Monitoring Policies: Alert Monitoring Rules 13-19  
Managing Monitoring Policies: Editing Alert Monitoring Rules 13-20  
Managing Monitoring Policies: Editing Monitoring Thresholds in Analytics 13-21  
Managing Monitoring Policies: Editing Parameters of a Monitoring Rule 13-22  
Managing Monitoring Policies: Creating a New Threshold Monitoring Rule 13-23  
Managing Monitoring Policies: Setting a Default Policy and Applying a Policy 13-24  
Managing Monitoring Policies: Setting a Monitoring Policy as Default 13-25  
Managing Monitoring Policies: Applying a Monitoring Policy to Assets 13-26  
Notification and Incident Management: Overview 13-27  
Notification and Incident Management: Viewing Alerts, Notifications, and Incidents 13-28

Notification and Incident Management: Message Center in the Browser UI 13-29  
Notification and Incident Management: Asset View of Incidents in the  
Browser UI 13-30  
Notifications and Notification Profile: Overview 13-31  
Notification Management: Configuring a Notification Profile 13-32  
Notification Management: Email Notification from Ops Center 13-33  
Incident Management: Overview 13-34  
Incident Management: Actions to Manage Incidents 13-35  
Incident Management Actions to Manage Incidents 13-36  
Incident Management: Viewing and Editing Incident Information 13-37  
Incident Management: Viewing Incident Information in the Browser UI 13-38  
Incident Management: Viewing Alerts and Annotations for an Incident 13-39  
Incident Management: Adding an Annotation to an Incident 13-40  
Incident Management: Service Dependencies 13-41  
Service Dependencies: Defining a Service Provider 13-42  
Service Dependencies: Defining a Service Consumer 13-43  
Service Dependencies: Viewing the Possible Causes of an Incident 13-44  
Incident Management: Managing Incident Ownership 13-45  
Incident Management: Assigning an Incident 13-46  
Incident Management: Acknowledging an Incident 13-47  
Incident Management My Incident Queue for Ops Center User 13-48  
Incident Management: Possible Actions for Incidents 13-49  
Incident Management: Placing an Asset into Maintenance Mode 13-50  
Incident Management: Asset in Maintenance Mode 13-51  
Incident Management: Taking an Action on an Incident 13-52  
Incident Management: Marking an Incident as Being Repaired 13-53  
Incident Management: Closing an Incident 13-54  
Incident Management: Managing Service Requests 13-55  
Incident Management: Service Requests in the Browser UI 13-56  
Incident Management: Service Request Details in the Browser UI 13-57  
Incident Management: Managing ASR Capabilities 13-58  
Changes in Incident Management for Enterprise Manager Ops Center 12c 13-59  
Quiz 13-61  
Summary 13-64

## **14 Working with Enterprise Manager Ops Center Reports**

Objectives 14-2  
Ops Center Reporting Capabilities: Overview 14-3  
Ops Center Charts: Overview 14-4  
Enterprise Manager Ops Center Charts: System Chart – Energy  
and Power Consumption 14-5

Enterprise Manager Ops Center Charts: OS Chart – CPU Utilization	14-6
Enterprise Manager Ops Center Reports: Overview	14-7
Enterprise Manager Ops Center Reports: Reports in the Browser UI	14-8
Enterprise Manager Ops Center Reports: Creating a New Report	14-9
Enterprise Manager Ops Center Reports: Configuring and Running a Report	14-10
Enterprise Manager Ops Center Reports: Viewing Report Results	14-11
Enterprise Manager Ops Center Reports: Standard Report Options	14-12
Standard Report Options: Exporting Report Results	14-13
Standard Report Options: Scheduling Options for Reports	14-14
Standard Report Options: Saving a Report as a Template	14-15
OS Update Reports: Solaris and Linux OS Update Reports	14-16
Solaris and Linux OS Update Reports: Report Definitions (1/2)	14-17
Solaris and Linux OS Update Reports: Report Definitions (2/2)	14-18
Solaris and Linux OS Update Reports: Change History Report	14-19
Solaris and Linux OS Update Reports: Baseline Analysis Report	14-20
Solaris and Linux OS Update Reports: Profile Report	14-21
Solaris and Linux OS Update Reports: Recommended Software Configuration Report	14-22
Solaris and Linux OS Update Reports: Solaris Update Compliance Report	14-23
Solaris and Linux OS Update Reports: Common Vulnerabilities and Exposures Report	14-24
Solaris and Linux OS Update Reports: Host Compliance Report	14-25
Solaris and Linux OS Update Reports: Catalog Compare Report	14-26
Solaris and Linux OS Update Reports: Incident Compliance Report	14-27
Solaris and Linux OS Update Reports: System Catalog Report	14-28
Solaris and Linux OS Update Reports: Additional Reports	14-29
Additional OS Update Reports: Distribution Update Report	14-30
Additional OS Update Reports: Service Pack Compliance Report	14-31
Additional OS Update Reports: Package Compliance Report	14-32
OS Update Reports: Windows OS Update Reports	14-33
System Information Report: Overview	14-35
System Information Report: Attribute Selection and Filtering	14-36
System Information Report: Sample Report Results (PDF Format)	14-37
Incident Reports: Overview	14-38
Incident Reports: Incident Summary Report	14-39
Incident Reports: Incident Detail Report	14-40
Firmware Compliance Report: Overview	14-41
Firmware Compliance Report: Firmware Profile Selection	14-42
Changes in Report Capabilities for Enterprise Manager Ops Center 12c	14-43

Quiz 14-44  
Summary 14-47  
Practice 14 Overview: Working with Reports 14-48

## **15 Performing Enterprise Manager Ops Center Administration**

Objectives 15-2  
Administration Scripts: Overview 15-3  
Administration Scripts: The eadm Script 15-4  
Administration Scripts: eadm Configuration Subcommands 15-5  
Administration Scripts: eadm HA Management Subcommands 15-6  
Administration Scripts: proxyadm Command 15-7  
Administration Scripts agentadm Command 15-8  
Adding and Removing Proxy Controllers: Overview 15-9  
Adding a Proxy Controller: Deploying a Proxy Controller from the Browser UI (1/2) 15-10  
Adding a Proxy Controller: Deploying a Proxy Wizard from the Browser UI (2/2) 15-11  
Adding a Proxy Controller: Newly Deployed Proxy Controller 15-12  
Removing a Proxy Controller: Unconfiguring/Uninstalling a Proxy Controller 15-13  
Networking in Ops Center: Overview 15-14  
Networking in Ops Center: Networks Navigation Panel in the Browser UI 15-16  
Administer Managed Networks on a Proxy: Associating Networks with a Proxy Controller 15-17  
Associating Networks with a Proxy Controller: Proxy/Network Associations in the Browser UI 15-18  
Associating Networks with a Proxy Controller: Proxy Controller with Associated Networks 15-19  
Migrating Assets Between Proxy Controllers: Overview 15-20  
Migrating Assets Between Proxy Controllers: Asset Migration in the Browser UI 15-21  
Migrating Assets Between Proxy Controllers: Asset Migration Job 15-22  
Performing Debugging using ODDoctor: Overview 15-23  
Performing Debugging using ODDoctor: Performing Self Diagnosis on an Asset 15-24  
Performing Debugging using ODDoctor: Self Diagnosis Wizard 15-25  
Enterprise Controller Configuration Settings: Overview 15-26  
Enterprise Controller Configuration Settings: Viewing Configuration Categories 15-27  
Enterprise Controller Configuration Settings: Changing Configuration Settings 15-28  
Upgrading Enterprise Manager Ops Center: Overview 15-29

Updating Enterprise Manager Ops Center: Downloading Updates in Connected Mode	15-30
Updating Enterprise Manager Ops Center: Steps in the Download Wizard	15-31
Upgrading the Enterprise Controller: Launching the Upgrade Wizard in the Browser UI	15-32
Upgrading the Enterprise Controller: Steps in the Enterprise Controller Upgrade Wizard	15-33
Upgrading Proxy Controllers: Viewing and Upgrading Proxy Controllers	15-34
Upgrading Agent Controllers: Viewing and Upgrading Agent Controllers	15-35
Upgrading Agent Controllers: Upgrading Agent Controllers from the Browser UI	15-36
Ops Center Backup and Restore: Overview	15-37
Ops Center Backup: Backup Command Syntax	15-38
Ops Center Backup: Sample Backup Script Execution	15-39
Ops Center Restore: Sample Restore Script Execution	15-40
Changes in Administration for Enterprise Manager Ops Center 12c	15-41
Quiz	15-42
Summary	15-44
Practice 15 Overview: Performing Administration	15-45
